Navy Year 2000 Tracking System (NY2KTS)
Software Release Notes
Version 2.3.14
14 May 1999

Software Change Description:

SCR #:   Description of Change

99-45   Developed a new Facilities & Infrastructure report (Y2KFAC02R07) for the Embedded IT Devices Compliancy Status. The report contains totals for 6 major categories (list below) for Mission Support and Mission Critical. The report "rolls up" all claimancies and activities together to provide a total DON overview. A description of each of the column totals is also provided.

Major Categories:
Biomedical Devices
Communications Items and Devices
Facility Components
Industrial Components
PCs and Servers
Productivity Systems

Report Columns:
Total Devices - The total quantity for the particular major category.
Compliant – The total quantity for the particular major category which is Y2K Compliant.
Unknown – The total quantity for the particular major category where Y2K Compliancy is Unknown.
Non Compliant – The total quantity for the particular major category which is not Y2K Compliant.
% Compliant – The Compliant column / Total Devices column.
Non Compliant Costs – The total cost of the devices which are NOT Y2K Compliant.
